SIMPLE DRENCHING SOLUTIONS FOR CALVES, LAMBS AND KID GOATS FASTER, WITHOUT STRESS TO YOUR ANIMALS

ANTAHI

ANTAHI

Ref. 120C750

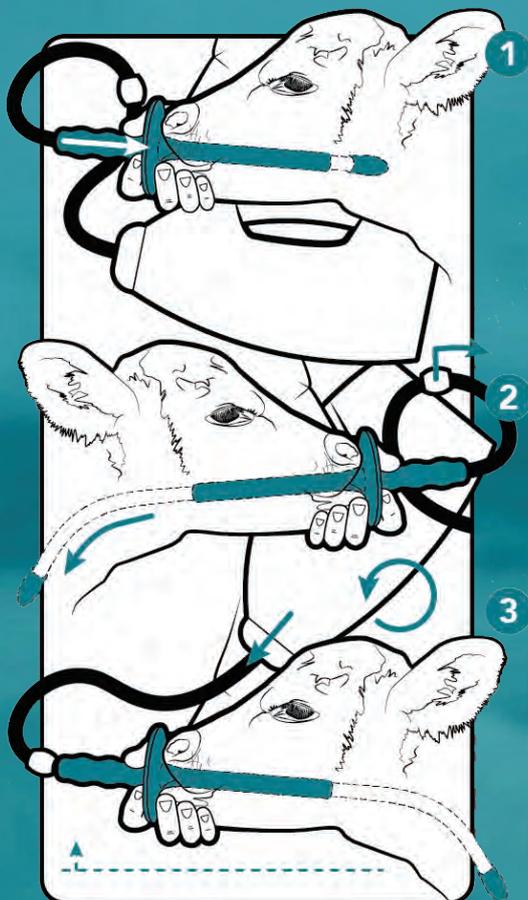

→ **2 in 1** comes with a cap that allows it to become a **4L calf bottle** for an easy **transition** between bottle feeding and drenching.

→ Rigid tip that can be handled with one hand. 4 litres capacity. Ergonomic handle plus a high flow valve allowing for **fast flow even with thick colostrum**.

→ **Stopper** and weight gauge for better positioning of the feed tube (from 20 to 140 kg).

2 in 1
Bottle and
drencher

1) Hold the mouthpiece in place throughout the feeding. Hold so it allows the mouthpiece to move with the calf.

2) Insert the tube through the mouthpiece so it enters correctly the Oesophagus.

3) Elevate the bottle so the liquid flows. Do not let the tube pull out more than one inch during fluid flow. Never let the calf drop its head below the level of the stomach.

ANTAHI

Ref. 120C755

2 in 1
Bottle and
drencher

→ **Flexible strap** around the ears frees one hand. **2 in 1** comes with a cap that allows it to become a **4L calf bottle** for an easy **transition** between bottle feeding and drenching.

→ Developed by a veterinarian, the Flexi Tuber **significantly reduces stress and discomfort during drenching**. The soft, flexible and transparent tube is easily introduced minimizing struggles, allowing for **fast and efficient drenching**. Tests indicate a **50% drenching time reduction**.

→ Rigid tip held on by supple strap. 4 litres capacity. Ergonomic handle as well as a high flow valve allowing for **fast flow even with thick colostrum**.

→ **Stopper** and weight gauge for a better positioning of the feed tube (from 20 to 140 kg).

The FLEXI TUBER is used in the same manner as the TRUSTI TUBER with the exception that it has a strap that holds it in place. TRUSTI and FLEXI TUBER allow for significant stress reduction compared to the more rigid drenchers on the market.

COLOSTRUM BAG

Ref. 120C770

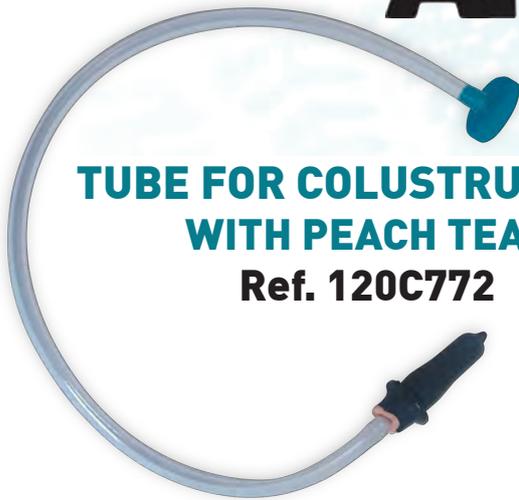

- **Colostrum bags** for calves.
- With ergonomic **handle**.
- **Large opening** for easy filling and cleaning.
- Facilitates rapid **thawing** and **pasteurisation**.
- **Large capacity** (4 litres flat frozen).
- The bags are **transparent** which allows easy viewing of content during feeding
- The bags are **reusable**. The maintenance of the bags will affect the amount of times it can be reused.
- Calves are born with low immune systems, a calf will need **10% of its weight in colostrum within hours of birth**. For example, a 40 kg calf will need to ingest 4 litres of colostrum in the first 4 hours.

help to develop
calve's immune
system by using Trusti
Tuber colostrum bags
