

UKAL

www.ukalcanada.com

The incubator is suitable for hatching eggs from Hen, pheasant, guinea fowl, quail, grey partridge, partridge, duck, mallard, goose, turkey, peacock, coturnix, pigeon, Virginia quail, exotic birds and birds of prey.

Capacity Up to 16, for medium and large eggs (up to goose eggs). Or up to 64, for small eggs (like quail).

Nominal tension 12 VDC (power supply unit included)
Maximum power 60 W

Average hourly consumption 40 Wh

Display Digital temperature control with decimal point.

Thermostat Microcomputer with PID technology.

Egg turning motor 12 VDC inclinations and variable intervention times controlled by a microprocessor.

Ventilation 12 VDC silenced axial fan, 60 mm diameter, with Autore-start function.

Heater 60W FLEX silicone cable resistor.

Sizes and weight Cm 39X34, high cm 22. Weight Kg 2,830.

Lumia 16 incubator

LUMIA 16: A small, technologically advanced, high performance machine. Its elegant design with "smart" technology makes this machine smart and easy to use and one of the best in its class.

LUMIA 16 stems from a desire to make the miracle of life available to all. It includes the highest professional incubation technology aimed at those with a limited number of eggs. The same technology that BOROTTO uses in larger models that can reach a higher level of accuracy and reliability.

LUMIA 16 is designed and built to better meet farmyard poultry and valuable species breeding requirements. Thanks to the use of innovative materials and a functional and ergonomic design, LUMIA 16 is an indispensable instrument that is easy to use, both for the professional breeder and for all new breeding enthusiasts who want to try breeding farmyard animals for the first time, with expectations of a good result.
